

ESG Intern/ Work Student (Goch, Germany)

Short description

Did you know that you already know us? Almost every second tablet on the global market contains our products. We work with practically all big pharmaceutical companies worldwide.

Now is your chance to join and gain first experiences! We are looking for a motivated and highly self-driven student to support our ESG (Environment Social Government) project. Are you the right one?

Requirement for your job:

Registered student with full-time compulsory internship of at least 6 months or registered student with max. work-time 20 hours per week

Your tasks:

- Execute Product Life Cycle Assessments
- Cleans and validate data for the Packaging Assessment
- Prepare materials for meetings
- Improve and automate existing reports and dashboards
- Assist in other Continuous Improvement (CI) activities

Your profile:

- Study in the area of Environment and/or Sustainability
- Creative and find solutions to identified issues
- Ability to work independently, with limited supervision
- Strong data analysis and visualization skills (MS Excel and PowerBI)
- Skills in the summarization of findings and main outcomes
- Fluent English (written and spoken); Dutch and/or German might be helpful

We offer:

- Opportunity to gain experience in an international pharma B2B company
- Highly motivated, very international and open-working environment
- Hybrid way of working (Home office and office combination)

Team details:

- As ESG Intern/Work Student you will support the Performance Excellence Specialist
- The vacancy located in Goch (Germany), which is close to Nijmegen (The Netherlands) and Düsseldorf (Germany)
